

BACKGROUND

The Superintendent is responsible for providing leadership in all matters relating to education in the Division, and for ensuring students in the Division have the opportunity to meet the standards of education set by the Minister.

PROCEDURES

1. The schools' first obligation is to provide a solid core program consisting of language arts, mathematics, science, and social studies.
2. The school is responsible for ensuring that students meet or exceed the standards defined by the provincial achievement assessments and graduation requirements.
3. Schools may use any instructional technique acceptable to the community so long as the results are documented.
4. Alternative schools and home education programs may be the most appropriate methods of delivering curriculum to some of the students in our system.
