

BACKGROUND

Western School Division, recognizing the importance and value of the involvement of students in activities that broaden their physical and intellectual development, supports the pursuit of musical competence by way of private music instruction.

PROCEDURES

While making student time and school facilities available to achieve this end, the primary responsibility of the school division is the instructional program prescribed by Manitoba Education. It is expected that the requirements of the regular program will take precedence over private music lessons, and the responsibility rests with students and music instructors to make suitable timetable arrangements.
